No.PAO (HQ)/ Misc-corr /2012-13 /859

dated 18.09.2012

Sub: Implementation of e-payment through COMPACT and provision of New Server, PCs and UPS-reg.

Sir,

While visiting Ministry of Finance regarding e-payment training, it was stressed upon by the officers of Ministry of Finance that special care should be taken for efficiency of the hardware. Besides, it is expected that some software like e-receipts will be added with the existing system in future. Hence PAO Branch must have a good quality and new hardware taking in to the consideration of element of risk, volume and time sensitiveness to meet the future requirements

It is added that the old server without UPS which was supplied by IT Branch for e-payment will not serve the purpose in long run as it is of lower configuration. Therefore, it is requested to arrange to supply the following items on priority.

1. The old server which was supplied in the month of June 2012 may be replaced with a new one.
2. To replace the existing five PCs (4 in PAO (HQ) and 1 in Cash Branch) with new and latest PCs with 21" Monitor & new UPSs.
3. To provide Five KVA UPS for the two servers.
