**Annexure-VIII to Unified License Agreement**

**List of other income to be excluded from GR to arrive at ApGR**

Sl. No.	Item/ Head of 'Other Income'	Description and conditions applicable
a.	Income from Dividend	<p>Income from dividend is return on investment made by the company. Such investment is made out of surplus funds available with the company. Companies Act, 2013 and Accounting Standard-9 classified dividend income as 'other income' i.e., distinct from the core operations of the entity.</p> <p>Therefore, income from dividend shall not be part of ApGR for the purpose of computation of LF.</p>
b.	Income from Interest	<p>Income from interest is return on investment made by the company in bank deposits, corporate deposits, debentures etc. Such investment is made out of surplus funds available with the company. Also sometimes, Licensee receives interest from Tax Authorities on advance tax or refundable tax. Companies Act, 2013 and Accounting Standard-9 classified interest income as 'other income' i.e., distinct from the core operations of the entity.</p> <p>At the same time, Licensee accepts refundable deposits from customers, telecom vendors and other Licensees. These deposits essentially are part of telecom operations. The interest income earned on such amounts should be recorded and certified by statutory auditors.</p> <p>Therefore, income from interest shall not be part of ApGR for the purpose of computation of LF. However, interest earned on refundable deposits from customers, telecom vendors and other Licensees shall be considered in ApGR for the purpose of computation of LF. Also, any refundable deposit received by the Licensee on the strength of telecom service viz. linkage with tariff, advance rental etc. shall also have similar treatment for inclusion in ApGR.</p>
c.	Capital gains on account of profit on sale of fixed assets and securities	<p>Capital gain earned by the Licensee on the account of profit on sale of assets and securities, are of from investing activities instead of from telecom operations. Therefore, the revenue on account of sale of immovable property, securities, warrants or debt instruments, other items of fixed assets shall not be part of ApGR for the purpose of computation of LF.</p>
d.	Gains from Foreign Exchange rates fluctuations	<p>Foreign Exchange differences arise when actual rates at the time of settlement differs from those at which they were initially recorded in the books. The provisions contained in the Accounting Standard-11 require a notional entry for exchange differences in respect of liabilities at the closing date of the AFSs. The foreign exchange gains reflected in the profit and loss statement of Licensee could arise from</p>

		<p>reduction of payment liability or increase in the value of foreign exchange accounts receivables. In other words, foreign exchange fluctuation is a contingency which has impact on every business which may have something to do with foreign exchange and is not specific and unique to telecom business.</p> <p>Therefore, revenue/profit arising out of upward valuation or devaluation on account of fluctuation of foreign exchange shall not be part of ApGR for the purpose of computation of LF.</p>
e.	Income from property rent	<p>Licensee may rent or lease part of their properties and earn revenue in the form of rent. Some Licensees as part of staff welfare measure provides staff quarters to their employees and receive rent from such staff. Revenue from rent cannot be distinctly treated as only from telecom business. Therefore, revenue/income from property rent shall not be part of ApGR for the purpose of computation of LF. In case property is let out for 'establishing, maintaining and working of telecommunication', then revenue/income from such rent shall be considered in ApGR for the purpose of computation of LF.</p>
f.	Insurance claims	<p>A receipt from Insurance company against loss of property/fixed assets is basically a reimbursement in nature for the loss occurred by the Licensee. Receipt of insurance claim from insurance company shall not be part of ApGR for the purpose of computation of LF.</p>
g.	Bad Debts recovered	<p>Bad debt is an amount owed by a debtor that is unlikely to be received/ realized and recognized as an expense in the books of accounts. Bad Debts recovered represents reversal of debits (i.e. bad debts) appearing in the profit and loss account of previous year(s). This basically represents an adjustment to the amount of an expense (i.e. bad debts) as estimated in an earlier year(s) in which it had already recorded as part of revenue from operations.</p> <p>Therefore, income on account of bad debts recovered shall not be part of ApGR for the purpose of computation of LF.</p>
h.	Excess Provisions written back	<p>Excess Provisions written back represent the reversal of excess provision made for any liability or expenses in any previous year. On settlement, this excess provision is written back into books of accounts as other income. This basically represents an adjustment 60 instead of actual revenue earned.</p> <p>Therefore, income on account of excess provisions written back shall not be part of ApGR for the purpose of computation of LF.</p>
