Note:

(1) M/s BDNPL is holding spectrum in 2300 MHz in 4 LSAs namely Gujarat, Himachal Pradesh, Uttar Pradesh (East) and Uttar Pradesh (West) LSAs. M/s Bharti Airtel is using BDNPL's spectrum in pursuance of order of Hon'ble TDSAT. However, merger of M/s Bharti and M/s BDNPL (erstwhile Tikona) is yet to be taken on record by the DoT as certain issues are sub-judice before the Hon'ble Supreme Court. In view of the above, for the limited purpose of spectrum cap, spectrum holding of M/s BDNPL may be taken as a part of the total spectrum holding of M/s Bharti Airtel, without prejudice to the pending judicial proceedings.

(2) Certain quantum of spectrum has been reserved for assignment to BSNL/MTNL for providing 4G services and will be assigned to them after completion of necessary formalities in accordance with the Cabinet approval in this regard. Such quantum has not been included in the above table.

(3) Request of BSNL regarding assignment/re-assignment of spectrum in 900/1800 MHz band is under consideration in DoT. Quantum of spectrum presently held by BSNL/MTNL in 900/1800 MHz bands is included in the spectrum holding shown in the above table.
