Information for Preparation of Country Report

1. The country report should be written either in MS-word or MS-PPT format. The following contents should be included in the Report:

    (1) Brief introduction of the country in terms of population, population density and its distribution, land area, land features, GDP, communication equipment manufacturers, etc.

    (2) Present status of 4G
        - Operator's status
        - The infrastructure of 4G
        - Government policy for 4G

    (3) Present status of 4G design and service planning
        - Service of internet
        - Key technologies of 4G
        - Challenges for 4G
        - Vision about deployment and development of 4G
        - Action plan implemented to achieve the above vision, including regulation and development policy, education policy, R&D policy, pilot project and business-academic joint collaboration etc.

2. A set of English brochure stating 4G and mobile economy of the participant's country is highly welcome.

3. Deadline for submitting the report and the above-mentioned brochure is at least one week before the training course. These two items can be submitted to the host either by email or in the form of disk.

4. Local host contact:
