

Information for Preparation of Country Report

1. The country report should be written either in MS-word or MS-PPT format. The following contents should be included in the Report:
 - (1) Brief introduction of the country in terms of population, population density and its distribution, land area, land features, GDP, communication equipment manufacturers, etc.
 - (2) Present status of New Generation Internet:
 - Operator's status
 - The infrastructure of computer networks
 - Government policy for network improvement.
 - (3) Present status of Internet Applications:
 - Key technologies of computer internet
 - Current status of computer internet
 - Vision and trend of computer internet
 - Challenges presented to the industry
 - Action plan implemented to achieve the above vision, including deregulation and development policy, education policy, R&D policy, pilot project and business-academic joint collaboration etc.
2. A set of English brochure stating internet present status and internet development of the country is welcome.
3. Deadline for submitting the report and the above-mentioned brochure is closing day of the training course. The two items could be submitted to the host either by mail or by disk.
4. Local host contact:
