A suitable agency may be selected for the job with clearly defined terms of reference. Initially, the social audit should be taken up on a pilot project basis and, based on its results/experience, it should be extended to the whole area/scheme. Timelines should be the essence to complete all the activities involved in the process and, as such, a definite time limit should be assigned for completion of various activities.

[Action: DDG(NE), USOF]

## (6) Simplifying Transactions
