18. Issue notice to the Defendants.

19. Mr. Mohammad Kamran, learned counsel accepts notice on behalf of Defendant No.13.

20. On steps being taken, notice be issued to the remaining Defendants, through all permissible modes, returnable on 25.08.2022.

21. It is averred in the plaint that Plaintiff No. 1 is a leading entertainment and media company in India engaged, *inter alia*, in the production of popular content broadcast on its STAR Channels (such as Star Plus, Star Sports 1, Star Gold, Star Jalsa, etc.) and is an exclusive licensee of media rights to various sporting events which are also broadcast on its Star channels such as the ongoing TATA Indian Premier League 2022. Plaintiff No.1 also claims to be a leading film production and distribution company. Plaintiff No. 2, it is averred, owns and operates the online audio-visual streaming platform and website, 'www.hotstar.com' and the mobile application, 'Disney+ Hotstar' which enables viewers to watch content such as serials (including content of STAR Channels) and programs, films, sports content including live sporting events, trailers of upcoming films and serials, international content through the medium of the internet.

22. Plaintiffs claim to have exclusive rights in the aforesaid works by

virtue of provisions of Section 14(d) of the Copyright Act, 1957, including *inter alia* the rights to publicly exhibit and communicate the said content through any medium or mode, including on STAR Channels or Disney+ Hotstar. It is pleaded that by virtue of the exclusive media rights granted to the Plaintiffs, they broadcast and communicate to the public, live, delayed, highlights, clips and/or repeat telecast of numerous sporting events *inter alia* the ongoing TATA Indian Premier League 2022 in India through Disney+ Hotstar and also through their STAR Channels. Plaintiffs claim to be the sole and exclusive owner of the Broadcast Reproduction Rights in relation to the aforesaid broadcasts of sporting events, communicated through the STAR Channels and Disney+ Hotstar, in accordance with Section 37 of the Copyright Act, 1957.

23. Learned counsel appearing on behalf of the Plaintiffs submits that it has come to the notice of the Plaintiffs that their exclusive rights in the aforementioned content, i.e. movies, general entertainment content (television shows, web-series, etc.) and sporting events *inter alia* the ongoing TATA Indian Premier League 2022, were and are continuing to be infringed by Defendants No.1-12 herein. It is specifically averred that Defendants No. 1-12 are infringing and/or facilitating/enabling/authorising infringement of the Plaintiffs' exclusive rights under Sections 14(d) and 37 of the Copyright Act, 1957, by reproducing, storing, transmitting, communicating, making available for viewing or providing access to the Plaintiffs' aforesaid contents/works.

24. It is further contended that Defendants No. 1-6 (hereinafter referred to as 'Rogue Apps') are third-party Android-based mobile applications that communicate, make available for viewing and provide access to content,

free of cost (or at minimal subscription) and without any authorisation from various right owners, including the aforesaid content of the Plaintiffs. It is also contended that the download, distribution and use of these Android-based mobile Apps, such as the Rogue Apps, occurs through a .APK(Android Package Kit) file format. These Rogue Apps are completely illegal apps and have no permission or authorization to reproduce, store, transmit, communicate or make available for viewing and provide access to any of the Plaintiffs' content. The intent and purpose of these Rogue Apps is clearly to exploit copyright-protected works of the Plaintiffs' content and to provide an alternative to legitimate sources to the user such that the user does not have to pay for enjoying the content.

25. It is averred in the plaint and argued by the learned counsel that Defendants No. 7 to 12 (hereinafter referred to as 'Rogue Websites') are third-party websites which serve as a repository of .APK files, that provide access to users of Android based mobile Apps such as the Rogue Apps. Differently put, the user who is looking for a specific Android based App that will provide access to infringing content, would typically be in a position to download such an App from the .APK file provided by the Rogue Websites. Hundreds of Android-based mobile Apps including most of the Rogue Apps are available for download on these Rogue Websites. It is further contended that the Rogue Websites, used to distribute numerous rogue Android-based mobile Apps, have been developed only to enable the download of the application file for such Apps, such as "RTS TV", "Stream India", etc. and are solely instruments/vehicles of infringement which are indulging in the illicit business of communicating/making available infringing content. Thus, according to the learned counsel, Plaintiffs have

reason to believe that the owners of the Rogue Websites, which are distributing the aforesaid Apps, are the owners of/affiliates of the owners of said Apps.

26. It is next contended that Defendants No. 1-12 continue to infringe the Plaintiffs' exclusive rights with respect to films, general entertainment content and sporting events, including but not limited to the TATA IPL 2022, which has commenced on 26.03.2022 and shall conclude on 29.05.2022.

27. It is brought out by the learned counsel that Defendants No. 13-22 are the domain name registrars of websites/UI domains of Defendants No.1-12, as captured in paragraph 81 of the Plaint and have been arrayed for the limited purpose of revoking/cancelling the domains of Defendants No. 1 to 12 as also to seek disclosure of the registrant details and billing details of these Rogue Websites/UI domains, so that the exact identity and location of the owner of these domains can be confirmed and discerned.

28. Learned counsel submits that Defendants No. 23-31 are Internet Service Providers which have been arrayed for the limited purpose of disabling access into India of the Rogue Websites/domains/UI along with the creators/developers of the Rogue Apps identified in the present suit or any other website/UI/App identified by the Plaintiffs on Affidavit. Defendants No. 32 and 33 are the Department of Telecommunications ('DOT') and Ministry of Electronics and Information Technology ('MEITY'), which are Government departments and have been arrayed for the limited purpose of issuing notifications calling upon the internet and telecom service providers to block access to the Rogue Apps and the Rogue Websites, identified in the present suit as also such other websites which are

subsequently discovered to be infringing the rights of the Plaintiffs. No formal relief has been sought against the Defendant No. 13-33.

29. It is further contended that Defendants No. 1-12 are anonymous entities/websites and the details of their owners are hidden or forged/inaccurate and that these entities/websites are vehicles of infringement that engage in flagrant violation of the intellectual property rights of the Plaintiffs. It is claimed that due to the nature of internet, which offers anonymity, these entities/websites systematically engage in violation of intellectual property rights of the Plaintiffs. Thus, the contention is that Defendants No. 1-12, i.e. Rogue Apps and Rogue Websites, are predominantly engaged in violating third party rights.

30. Having heard learned counsel for the Plaintiffs, this Court is of the view that Plaintiffs have made out a *prima facie* case for grant of *ex parte ad-interim* injunction. Balance of convenience lies in favour of the Plaintiffs and they are likely to suffer irreparable harm in case the injunction, as prayed for, is not granted.

31. Accordingly, the following directions are passed:

a. Defendants No. 1 to 6 (and such other Rogue Apps which are discovered during the course of the proceedings and notified on Affidavit by the Plaintiffs to have been infringing/authorising the infringement of the Plaintiffs' exclusive rights, copyrights and broadcast reproduction rights), their owners, partners, proprietors, officers, servants, affiliates, employees, and all others in capacity of principal or agent acting for and on their behalf, or anyone claiming through, by or under it, are restrained from in any manner communicating to the public, hosting, storing, reproducing, streaming, broadcasting, re-broadcasting, causing to be seen or heard by

public on payment of charge and/or making available for viewing, the Plaintiffs' Works/Content through their Rogue Apps (*viz*, Ninja TV, RTS TV, Kyte TV, Picaso TV, Stream India and Hotstar Mod App) or any other App, including ones whose names/branding/trademark recall is deceptively or substantially similar to the Rogue Apps identified hereinabove, amounting to infringement of the Plaintiffs' copyright and Broadcast Reproduction Rights, till the next date of hearing;

b. Defendants No. 7 to 12, on both 'http' and 'https' (and such other websites/entities which are discovered during the course of the proceedings and notified on Affidavit by the Plaintiffs to have been infringing/authorising the infringement of the Plaintiffs' exclusive rights, copyrights and broadcast reproduction rights), their owners, partners, proprietors, officers, servants, employees and all others in capacity of principal or agent acting for and on their behalf, or anyone claiming through, by or under it, are restrained from in any manner infringing and/or authorising the infringement by *inter alia* facilitating and materially contributing to the communicating, hosting, streaming and/or making available for viewing and downloading, without authorization, on their websites or other platforms, through the internet in any manner whatsoever, the Plaintiffs' content, so as to infringe the Plaintiffs' exclusive rights, copyrights and Broadcast Reproduction Rights, till the next date of hearing;

Affidavit by the Plaintiffs to be infringing/authorising infringement of its exclusive rights."

3. I state that in order to protect and enforce its exclusive rights in the Plaintiffs' Content, including but not limited to the content made available through the Plaintiffs' STAR television channels (such as Star Sports 1, Star Gold, Star Utsav, etc.) ("STAR Channels"), the Plaintiffs engaged the services of an investigation agency, Copyright Integrity International, to identify and monitor additional rogue third-party websites (in terms of para 31(b) of the aforementioned order dated 06.04.2022) which serve as a repository of .APK files that provide access to users of rogue Android-based mobile Apps (such as the Defendant Nos. 1 to 6), and gather evidence of their infringing activity. I state that the following 10 websites have been identified by the investigation agency which are intricately involved and seem to have a common design with the creators / developers of the Rogue Apps in infringing and/or authorising the infringement of Plaintiffs' exclusive rights in the Plaintiffs' Content, including but not limited to the content made available through the Plaintiffs' STAR Channels:

S. No.	Rogue Websites
1.	apkasset.com
2.	apkcima.com
3.	apkliker.net

4.	apkmart.net
5.	apkpot.com
6.	apkshelf.com
7.	m.apkpure.com
8.	moddator.com
9.	streamindiaapkpro.com
10.	techaccents.net

4. I state that the from the evidence filed along with the present Affidavit, it is evident that the above-mentioned websites are infringing and/or authorising infringement of the Plaintiffs' exclusive rights in the Plaintiffs' Content, including but not limited to the content made available through the Plaintiffs' STAR Channels. I state that the Plaintiffs are the exclusive right holders for Plaintiffs' Content, including but not limited to the content made available through the Plaintiffs' STAR Channels, for the worldwide territory and the Plaintiffs have not authorised the above-mentioned websites to communicate and/or make available for viewing the Plaintiffs' Content, including but not limited to the content made available through the Plaintiffs' STAR Channels, by making available for download and usage the Rogue Apps (i.e., Defendant Nos. 1 to 6, and other rogue Apps notified by the Plaintiffs subsequently on Affidavit).

5. I state that the evidence filed herewith also shows that the business model and primary purpose of the websites identified

herein is to (a) provide a repository of such rogue mobile Apps, including the Rogue Apps (i.e., Defendant Nos. 1 to 6, and other rogue Apps notified by the Plaintiffs on Affidavit), which are not allowed to be listed on App Stores like Google App store, ostensibly due to violation of their policies (which could include policies related to intellectual property), thereby circumventing the specific security limitations and prohibitions put in place by such App stores, and/or (b) to provide access to Mod APKs for official Android-based mobile Apps (like the Disney+ Hotstar App) so that the user does not have to make any payments for subscription or upgradation or in-app purchases that would otherwise be required in the official mobile Apps.

6. I further state that a perusal of the evidence filed herewith clearly evinces that these aforesaid 10 websites are rogue in nature, as the .APK files being distributed and promoted on the aforementioned websites have no non-infringing use / utility and as such, these websites are solely instruments / vehicles of infringement which authorise, actively facilitate and materially contribute to the infringement of the Plaintiffs' copyright and broadcast reproduction rights through *inter alia* the myriad Rogue Apps impleaded in the instant suit as Defendant Nos. 1

to 6. It is submitted that from the evidence filed herewith, it is evident that the said rogue websites, used to distribute numerous rogue Android-based mobile Apps, have been developed only to enable the download of the application file for such Apps, such as “RTS TV”, “Stream India”, etc., which are indulging in the illicit business of communicating / making available infringing content.

7. I further state that the Plaintiffs are not aware of the owner(s) of these rogue websites as either they are anonymous or have incorrect or incomplete addresses.
8. I state that in terms of the following directions passed by this Hon’ble Court, *vide* order dated 16.04.2021, *ex parte ad-interim* order dated 06.04.2022 (reproduced herein above) is also applicable on the above mentioned websites.

“31. Accordingly, the following directions are passed:

a. Defendants No. 1 to 6 (and such other Rogue Apps which are discovered during the course of the proceedings and notified on Affidavit by the Plaintiffs to have been infringing/authorising the infringement of the Plaintiffs’ exclusive rights, copyrights and broadcast reproduction rights), their owners, partners, proprietors, officers, servants, affiliates, employees, and all others in capacity of

Installation Guide

In order to install the applications and games that you will see in APKCima, you will need to know how to install APK files and, occasionally, you will also have to install OBB files. We are going to show you what each one consists of, and how you can install them on your smartphone or tablet.

What is an APK file?

An APK file is an Android application installation file. It uses a Java-based format that allows Android to access the content of the APK file and execute it to install it on your system.

Essentially, then, an APK file is an installer for an Android app. All the games and apps that you will find on this page will be in APK format, since it is the native format for installing Android apps.

How to use an APK file?

- To install an APK file, the first thing you should do is save it on the device where you want to use the app corresponding to that APK file. The easiest way to do this is to download the APK file directly from the device.
- When you have already downloaded the APK file to your smartphone or tablet, then it will be time to install it. To do so, you will need to open the APK file with an **Android file explorer**. Not all smartphones or tablets have a native one, so you may have to install one through the Google Play Store.
- As soon as you have your file explorer operational, you will be able to install the APK file. To do so, explore the folders of your Android until you find the downloads folder, where you will surely have the APK file you just downloaded stored.
- Next, click on the APK file to open it. Then, your Android's file explorer will run the APK file to install the app it contains. In this instance, Android will show you a message saying that you need to enable installation from unknown sources in order to install this app. This message appears whenever you install an APK file from a source other than the Google Play Store.
- If you trust the source from where you downloaded the file –and, of course, APKCima always offers you APK files that are safe and free of viruses–, then accept the installation from unknown sources, and then Android will proceed to install the APK file on your device.

It is done! The process is that simple. Now you can enjoy your newly installed app on your smartphone, completely free!

It is done! The process is that simple. Now you can enjoy your newly installed app on your smartphone, completely free!

What is an OBB file?

An OBB file is a file that functions as a separate library of data necessary for the proper functioning of an Android app. Not all Android apps require an OBB file, but some use it to store graphics, media files, and other types of data that may be too large to integrate into your native app. Sometimes using an OBB file allows you to keep your app's executable file much more compact and lightweight, which speeds up its load times and makes it easier to update in the future.

How to use an OBB file?

- OBB files must be extracted to a specific folder in order for them to work. For this, the first thing you will need is an application that allows its extraction. You can download the **RAR app for Android** from the Google Play Store to do this.
- When you have the RAR app for Android installed, you will have everything ready to install your app. In the first instance, install the APK file of the app as we have seen above on this same page.
- When the APK file is installed, it will be the turn of the OBB file. Download the OBB file on your smartphone and unzip it using the RAR app for Android.
- The content of the OBB file will be a folder. Save it in the path **/Android/OBB**.
- It is done! Now you can run your app or game and enjoy all its content.

Frequent problems with APK and OBB files

I can't find my APK/OBB file

Normally, these files are stored in the 'Downloads' folder of your Android. The location of this folder may vary depending on your device, but most file managers will show you a shortcut to your downloads on their home screen.

My APK does not install correctly

Make sure that you are installing the APK file on the phone's internal memory and **not on the SD card**. Although some apps work on SD cards, many others only allow them to work if they are run from internal storage.

The app runs, but it gives me an error

You may be missing the OBB file because it is not installed properly. If your app is installed in the internal memory of the phone, make sure that its corresponding OBB file is also installed in the internal memory, in the **/Android/OBB** path. Instead, if the app is installed on the SD card, try installing the OBB file to the **SD/Android/OBB** path.
