NIAS/DST/PSSP/2018
July 25, 2018

Dear Smt Aruna Sundararajan,

The National Institute of Advanced Studies (NIAS) is a vision of JRD Tata to create leaders for the nation in government, private and public sectors and carry out multi-disciplinary research in the areas of high relevance to the Nation. All our programmes are intertwined with realization of synergy of disciplines and thus creating the desired impact with unique contributions. As part of its outreach programme, NIAS conducts residential programmes every year for persons in senior positions in the government and industry. The main aim of these programmes is to acquaint the participants with current developments in science, technology and policy and their overarching scientific, social and policy dimensions.

The Department of Science and Technology (DST), Government of India has been supporting NIAS to conduct these programmes. For the seventh successive year, a Programme meant exclusively for Directors and potential Directors of Scientific Establishments in India is being organized in NIAS. This year, as in the previous years, the theme of the programme is **Policy for Science and Science for Policies**. The Programme will be conducted during **October 1 to 5, 2018**. It is a residential programme and the participants will be provided guest house accommodation on the campus. Local hospitality will be provided by NIAS.

Our programmes consist of interactive sessions with distinguished faculty drawn from organizations of repute in the country. I have great pleasure in requesting you to nominate not more than three senior scientists/officers (**with at least 20 years experience**) to attend this programme. Professionals currently managing large scientific establishments/organizations in the country would benefit from this programme. Needless to say therefore we would prefer the nominees to be senior professionals in the organization. **Your organization will have to bear the cost of travel to Bengaluru and back.** We would greatly appreciate receiving your nominations latest by **August 31, 2018** in the enclosed **nomination and biodata formats**. Participation in this programme is limited to 25 based on a review and selection process as per the guidelines given by DST. A **Concept Note** on the Programme is also attached.

For more details about the programme please contact Prof Sangeetha Menon or Dr Nithin Nagaraj (Programme Coordinators) or Ms V Girija (Administrative Coordinator). The contact email id is (niaspssp.dst@gmail.com).

Looking forward to having your active support in conducting the programme and making it a success and great experience.

DDSF(AA)

With my best wishes and personal regards,

SNayak
Shailesh Nayak

Name:

The National Institute of Advanced Studies (NIAS) has been organizing with support from the Department of Science and Technology (DST), Government of India, training programmes to provide the orientation and planning skills required for scientists/technocrats of the country, and in particular, to offer views of the broader scientific, economic, social and cultural milieu in which the Indian scientific enterprise could develop in this century. The large pool of scientific and technical manpower in many Indian institutions has not had the benefit of either induction training or a system of regular in-service training that are available to other cadre-based services. In order to bridge this gap, this Programme which is now seventh in the series for scientist-administrators and technologists at the Directors/Divisional Heads/Chief Scientists/Senior Scientists position from various scientific organizations in the country will focus on the theme 'Policy for Science and Science for Policies'. The Programme will be conducted during **October 1 to 5, 2018**. Consistent with the mission of NIAS, its programmes emphasize the development of leadership qualities through the integration of multidisciplinary knowledge.

About the Training Programme

The training programme includes several technical lecture sessions (including the Inaugural and Valedictory function), and cultural programme. There will be a session on Yoga practice in the mornings. The defining feature of lecture pattern in our programmes consists is the interactive session with distinguished faculty drawn from different organisations and occupations. The general format is a presentation for 45 minutes followed by discussions for 45 minutes. The participants would be encouraged to interact in-depth as much as possible with the speakers.

The programme will draw speakers from across the nation to address some of the following topics:

- Information Technology and Robotics
- Science Policy and Security
- Science Policy, Education and Culture
- Energy Policies and Climate Change
- Science and Society
- Science and Communication

More information about the lectures will be provided to the nominated participants.

Infrastructure

Situated on five acres of land within the verdant campus of the Indian Institute of Science, the buildings of NIAS have a strikingly distinctive architecture with elegant lines and arched corridors. The fully furnished guest rooms make the visitors' and programme participants' stay a pleasant one. NIAS organizes a variety of programmes and public events. The campus of NIAS is often admired for its peaceful and green environs, an atmosphere conducive to research.

The facilities of NIAS include JRD Tata Auditorium, Lecture Hall, Conference Halls, Guest Rooms, Dining Hall and Green House for open air activities. These facilities are used from time to time for various activities of the Institute and when they are not being used by the Institute it is available for others.

Since the programme is residential, NIAS will arrange boarding and lodging facilities. In view of this guideline, it is necessary that all the participants stay in the campus. The outstation participants will be received at the Bengaluru airport.

Nominations

The Programme participants will be from various institutions like DST, DRDO, DAE, ISRO, ICMR, ICAR, CSIR, DSIR and Universities. **No participation fee** is involved for attending this essentially residential programme. **Only the travel expenses to Bengaluru and return are to be met by the nominating organizations as stipulated by DST.** Participation in this Programme is limited to 25 individuals.

Last date for receiving nominations: **August 31, 2018.**
