No. 815-15/2004-LR

Dated : 31 .12.2004

To

Commercial VSAT Service Providers

Sub : Amendment to License Agreement for provision of VSAT service using INSAT System.

The Clause No. 2.2 (iii) under TERMS AND CONDITIONS of license No. 815- / -LR for provision of VSAT service using INSAT system has been amended to read as follows :

"The scope of service is to provide data connectivity between various sites scattered within territorial boundary of India using VSATs. These sites should form part of Closed User Group (CUG). However, the Commercial VSAT licensee after obtaining ISP license may use same Hub station and VSAT (remote station) to provide Internet service directly to the subscribers, and in this case VSAT (remote station) may be used as a distribution point to provide Internet service to multiple independent subscribers."

No. 815-15/2004-LR

Dated : .12.2004

To

Commercial VSAT Service Providers

Sub : Amendment to License Agreement license No. : 815- / -TM issued for VSAT services Via INSAT system.

The Clause No. 4 of amendment to license No. : 815- / -TM dated for VSAT Service issued consequent to Migration to new Licencing regime under NTP 99 has been amended to read as follows :

“ 4. Scope of service :- The scope of service is to provide data connectivity between various sites scattered within territorial boundary of India using VSATs. These sites should form part of Closed User Group (CUG). However, the Commercial VSAT licensee after obtaining ISP license may use same Hub station and VSAT(remote station) to provide Internet service directly to the subscribers, and in this case VSAT(remote station) may be used as a distribution point to provide Internet service to multiple independent subscribers.

The VSAT Service provider can offer the service on commercial basis to the subscribers by setting up a number of Closed User Groups (CUGs). The intent of this license is not to grant long distance carrier rights .”
